## **DETAILED ACTION**

1. This Office Action is in response to the Amendment filed October 12, 2004. Claims 1-7 and 19-20 were canceled and claims 8-18 and 21 are now pending.

### ***Examiner's Amendment***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CAR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

3. The application has been amended as follows:

Page 1, between **the main title** and **the subtitle** of FIELD OF THE INVENTION, insert following statement:  
--This application is a division of application, Serial No. 10/228,755, filed August 27, 2002, now US 6,777,514.--

### ***Allowable Subject Matter***

4. Claims 8-18 and 21 are allowed.

5. The following is an examiner's statement of reasons for allowance:

The present claims are allowable over the closest references: Drent (US 4,804,738).

The present invention relates to a polymerization method comprising reacting

(1)	geminally disubstituted olefin
(2)	carbon monoxide
(3)	ethylene
<b>under free radical polymerization conditions</b>	

(summary of claim 1)

Drent discloses a terpolymer of carbon monoxide, ethylene, and a secondary ethylenically unsaturated hydrocarbon, wherein the secondary ethylenically unsaturated hydrocarbon is preferred to be isobutylene and the terpolymer is obtained in the presence of a catalyst comprising a palladium compound (abstract; col. 3, lines 67-68). Attention is drawn to Comparative Example II, wherein a terpolymer of carbon monoxide, ethylene, and isobutylene is prepared (col. 5, lines 31-41). However, Drent does not teach or fairly suggest the method for polymerization under free radical conditions.

In light of the above discussion, it is evident as to why the present claims are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no

later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
